Ambassador Richard Helms

STAT

Dear Mr. Helms:

Once more I wish to say thank you for your recurring assistance with our project. It is no exaggeration to say that our task would be infinitely more difficult without your continuous cooperation, and I feel certain that the end product would be far less satisfactory.

I have reviewed the tape from our session last Wednesday and am happy to report that it contains many useful insights and judgments, which should make this current chapter both richer and more accurate.

STAT

So please accept this as a token of our gratitude for all the time you have so freely given us.

Sincerely,

*/s/*
